NRCan Reminder - Importing regulated energy-using products

Canada’s Energy Efficiency Act and Energy Efficiency Regulations prohibit the importation of certain energy using products (for the purpose of sale or lease) unless specific requirements are met by importers/dealers.

Import Reporting Requirements

NRCan import reporting requirements: the five data elements**

- 1. Name of the products (e.g. dishwasher)
- 2. Model number of the product
- 3. Brand name (if applicable)
- 4. Address of the dealer
- 5. Purpose of the importation

**The five data elements are not required for battery chargers, external power supplies, fluorescent lamp ballast, electric motors and small electric motors incorporated into another product at the time of import.
