

# LIST OF NDT PERSONNEL CURRENTLY CERTIFIED BY NATURAL RESOURCES CANADA

Last updated on February 8, 2019

## IMPORTANT UPDATES

### IMPLEMENTATION OF CAN/CGSB-48.9712-2014 / (ISO 9712:2012, IDT)

All personnel appearing on the Certified Personnel list are currently certified even though they may not have received their updated certification card from NRCAN.

#### CERTIFICATIONS EXPIRING DECEMBER 31ST, 2018:

NRCAN is currently completing the processing of renewal requests for clients whose certifications will expire on December 31, 2018. This process should be completed by February 15, 2019. Clients showing an expiry date of December 31, 2018 that have submitted valid renewal requests before December 31, 2018 will continue to hold valid certification until February 15, 2019.

#### CERTIFICATION RENEWAL DATES

All candidates who are due for recertification must successfully complete their recertification examination before their next NDT certification renewal date. During the transition period for the implementation of CAN/CGSB-48.9712-2014 / (ISO 9712:2012, IDT), once clients that require recertification are renewed, their certifications are valid until their next NDT certification renewal date, however their renewal is issued on a conditional basis pending the successful completion of their recertification examination process. Candidates who do not complete their recertification examination by the end of their period of validity will not have their certifications renewed past their current expiry date. Certification status of NDT certified personnel can be verified by contacting the NRCAN National NDT Certification Body.
